

CLEAR - PLAIN SAWN

CLEAR - RIFT SAWN

CLEAR - QUARTER SAWN

*Note: Wenge is a *Premium Finish* as it is an exotic species and we source the material to cut our own veneers. Please inquire about the current availability of this species.

Please Note:

These images are intended to show grain patterns and color tones for standard finishes in the collection. Because photo reproductions can vary, we cannot guarantee an accurate color match to what is shown here. Please contact one of the showroom representatives for physical samples to confirm textures, patterns, and colors of our finishes.

Wood is a natural material with inherent color and grain variations that can impact overall appearance; a material's natural grain and color will influence stain acceptance, etc. Also note that exposure to light, heat, and changes in humidity can alter the final appearance of a piece over time.
